WHERE TO FIND YOUR CREDENTIALS

Sage Payment Solutions

<http://www.fairwaypayments.com/>

Fairway Payments is KIMBIA's preferred payment reseller. If you setup payments through Fairway, your credentials will be sent to KIMBIA as part of your setup process and you will receive a 'Welcome' email that contains your login information for your online account as well as your M_ID and M_Key. If you have an existing Sage Payments account, or setup your account directly with Sage Payments, make sure to specify that you want Vault service which enables recurring payments.

Fax your credentials to 512.692.5202 or call 512.474.4447 and give your credentials to a member of our Services team.

IATS

<http://www.iatspayments.com>

You will receive an email from IATS that contains your 99 sub code and an 01 sub code. In addition, you will need to request from IATS a recurring sub code. KIMBIA requires the passwords on all three sub codes to be the same. It is recommended that you fax this form to KIMBIA - 512.692.5202 or call 512.474.4447 and give your credentials to a member of our Services team.

Authorize.Net

<http://www.authorize.net/>

To activate Authorize requires two credentials from your system; your API Login ID and Transaction Key. These instructions may be helpful, or feel free to contact KIMBIA for assistance: 512.474.4447

****** IMPORTANT: please record your transaction key--you will need this for any online provider and Authorize.Net will not give it to you again. If you follow this process again, the previous transaction key will be deactivated stopping any providers currently taking money until they have the new transaction key.**

- 1) log in to your Authorize.Net account
- 2) click the 'Account' link (in the blue bar across the top, to the right side)
- 3) click the API Login ID and Transaction Key link (in the Security Settings section, right column, bottom link)
- 4) answer your secret question and click submit
- 5) the system will give you your Login ID and a new Transaction key
- 6) provide the credentials to KIMBIA by phone or fax (email is not as secure). Fax number is 512.692.5202.

PayPal PayflowPro

https://www.paypal.com/cgi-bin/webscr?cmd=_payflow-pro-overview-outside

The credentials KIMBIA needs to setup PayPal PayFlowPro as your gateway are the same pieces of information you use to login to PayPal's online terminal. Many of our customers have setup a special KIMBIA login within PayPal, and those login credentials work perfectly well also. Once you have the login information, fax it to 512.692.5202 or call 512.474.4447 and give your credentials to a member of our Services team.

Chase Paymentech Orbital Gateway

<http://www.chasepaymentech.com/portal/server.pt?mode=2&uuID=%7B51E4374F-3CEF-0974-3D81-CD0E015BD000%7D>

If you have an existing account with Chase Paymentech's Orbital Gateway, please let a member of the Services team know and we will work with you to obtain your credentials. Please contact KIMBIA Support at: 512.474.4447

Please note that KIMBIA does not profit by referring you to payment providers. We feel this enables you to negotiate the best possible rates. Our recommendations are based on our customer's experience with each provider.
